Hey girl, don't make me do this
You crossed the line for the last time
Do you really think I didn't noticed?
Do you really think I wouldn't care?

You're too deep down
From here no one can hear you scream
Yes girl, you're too far away
From anything but me and this gun

(Shoot it, shoot it, pull the trigger) x3

Bitch!

Hey girl, don't make me do this
You crossed the line for the last time
Do you really think I didn't noticed?
Do you really think I wouldn't care?
