I can't sleep tonight

Lets go!

Stab me, directly in the heart
Watch me bleed; I'm lying on your feet
I'm dying, living for just one last breath with you
With you!

I live, for you and only you
Stop lying; you know I'd lie with you
We're dying on the inside,
You're smiling on the outside
Settle the score. Knife vs. Face Round 1

Stab me, directly in the heart
Watch me bleed; I'm lying on your feet
I'm dying, living for just one last breath with you
With you!

Forget the taste of me and follow your instinct
Your instinct

Stab me, directly in the heart
Watch me bleed; I'm lying on your feet
I'm dying, living for just one last breath with you
With you!

And stab me, directly in the heart
Watch me bleed; I'm lying at your feet
I'm dying, living for just one last breath with you
With you.
