Down, down, like an aeroplane
Storm hit with a world of hate
I was holding on
But still falling to the ground

Turn, turn in the hurricane
Wind hit with the heavy rain
You were calling out
But I never heard a sound

And so I'll go back where we started
(Down, down)
I forgot that the heavens are shining for You
Light up my heart like the new day
I never mind if the darkness has to stay, yeah
I'll comeback with a little faith

Burn, burn this consumer's flame
Never thought it could suffocate
Because I can't keep up
And the fire's burning out

The world will never be enough with its know how
What can I get now, I'm sick of all your lies
They're such a let down, it got my head in the clouds
Was lost, then I found Your grace

I'll just go back where we started
(Down, down)
I forgot that the heavens are shining for You
Light up my heart like the new day
I never mind if the darkness has to stay, yeah
I'll comeback with a little faith

I wanna get back, I know when I'm not right
I'll never look back, back on the old life
'Cause I wanna make a comeback
If it takes me life time
Will You show me where You're at?
And I'll find the way in Your light

The rain is over, the clouds are parting now

So, I'll go back where we started
And I forgot that the heavens are shining for You

I'll go back where we started
(Down, down)
I forgot that the heavens are shining for You
Light up my heart like the new day
I never mind if the darkness has to stay, yeah

So, I'll go back where we started
(Down, down)
I forgot all the heavens are shining for You
Light up my heart like the new day
I never mind if the darkness has to stay, yeah
I'll come back with a little faith
