- Music: Barton, Lyrics: Casey -

My friends, my town, Comaraderie  
We'll never finish last  
We stood as one where are they now  
We grew up fast  
Too young to know or really give a shit  
The past has left us worse for wear

Be strong and stand  
Stand up like a man  
Your concept of Friendship isn't right  
Third man in is how you show your care  
Nothing else matters but the fight

Some will survive  
I hope I'm one of them  
Things aren't what the used to be  
It makes me sick  
Our bond has broke and we aren't what we were  
It's time to face life on my own
