Well I just got back from a break in the fight I was
weighing in heavy but still feeling alright
All I hear in the distance mines and shells
Here come the sirens wailing another attack to be
repelled

Do you think we're gonna make it?
I don't know unless we try
You could sit here scared to move or we could take
them by surprise
It's submission that they want
It's surrender that they need
When we're doing it their way their aims will be
achieved

They're gonna come when you're not ready
When you're not to well-prepared
They're gonna prey upon your weakness no man's soul
is ever spared
You've got to stand up, yeah, and fight them
Show them what it's all about this man is not for sale
there will be no backing down

Stand up and fight and I'll stand up with you!
We shall succeed
Stand up and fight and I'll stand up with you!

They won't get me they won't get me
Though they never cease to try
They won't get me they won't get me
I would rather fight and die
They won't get me they won't get me
Well my friend will they get you?
When they get you when they get
You tell me what you gonna do?

Do you think we're gonna make it?
I don't know unless we try
You could sit here scared to move or we could take
them by surprise
It's submission that they want
It's surrender that they need

When we're doing it their way their aims will be
achieved

They're gonna come when you're not ready
When you're not to well-prepared
They're gonna prey upon your weakness no man's soul
is ever spared
You've got to stand up, yeah, and fight them
Show them what it's all about this man is not for sale
there will be no backing down

Stand up and fight and I'll stand up with you!
We shall succeed
Stand up and fight and I'll stand up with you!

Stand up and fight and I'll stand up with you!
We shall succeed
Stand up and fight and I'll stand up with you!
