The once steel tough fabric of the union man  
Was sold and bartered all away  
Fed to money wolves in the Reagan years  
Caught in a drift in greedy ninetie's days  
So inside this song is our rally cry

Your dreams are in danger  
And we must rise  
Our time has come we are under the gun  
It's do or die

It's not a rebel cry of some socialist scheme  
To push for human rights  
Just the facts an obvious mentioned  
On the behalf of the working man  
For his family and his livelihood

Your dreams are in danger  
And we must rise  
Our time has come we are under the gun  
It's do or die

The once steel tough fabric of the union man  
Was sold and bartered away  
Fed to money and wolves in the Reagan years  
Caught adrift in greedy nineties days

Your dreams are in danger  
And we must rise  
Our time has come we are under the gun  
It's do or die
