suddenly im taken over  
i never thought it would happen so damn fast  
my heart has got a brand new owner  
im thinking of a way to make this last  
the problem is i hardly know her  
the truth is i cannot place her name  
i dont think it really matters  
cuz hopefully shes thinking just the same

lavender, intoxicate me for awhile  
lavender, with your hip infectious style  
hav'in her, satisfy my deepest need  
lavender, is giving me a new hunger to feed

but this should be going better  
i really was hoping for much more  
i feel like a broken record  
repeating all the things ive said before  
she doesnt really seem to get me  
i cant seem to keep her mind on track  
but shes got a killer body  
and maybe one day we will look back on  
the day we met with laughter  
when things are better

lavender, intoxicate me for awhile  
lavender, with your hip infectious style  
having her, satisfy my deepest need  
lavender, is giving me a new hunger to feed

oh no, she dreams of parties and city night life  
she bar hops, taking any guy  
who makes her feel like a princess  
and repeats this process

lavender, always looking for a chase  
forever and ever  
searching for the p  
having her, is having 700 men  
who slept with her, so fuck it im going back to bed
