"So Out Of Reach"

I close my eyes when I wish to fall asleep
But rest never seems to follow
Keeping up is an endless feat
And I'm starting to slow down

All I've spoken are empty words
Giving the same uninspired lines
Wasting breath on hopeless advice
Now tell me one more time
That everything I do these days
Is a lesson to teach
But everything I want these days
Is so out of reach

Always kept at an arms length apart
Embraces never were a choice
If I were there I'd whisper troubles all the way
But all I can hear is my own voice
And everything I do these days
Is a lesson to teach
But everything I want these days
Is so out of reach

And I'm so tired of trying
I'm so tired of trying
When everything I do these days
Is a lesson to teach
But everything I want these days
Is so out of reach

All I do
All she says
All I want
All I feel
All I do
All she says (Everything I do)
All I want (Everything she says)
All I feel (Everything I want everything I feel today) ((All I feel))
All I do (Everything I do) ((Wasting breath))
All she says (Everything I do) ((On everything))

All I want (Everything she says) ((Everything she's
feeling today))
All I feel (Everything I want everything I feel today) ((All
I need))
All I do ((And everything she does))(((Words are
spoken)))
All she says (Everything I do)
All I want (Everything she says)
All I feel (Everything I want everything I feel today)
All I do
All she says (Everything I do)
All I want (Everything she says)
All I feel (Everything I want everything I feel today)
All I do
All she says (Everything I do)
All I want (Everything she says)
All I feel (Everything I want everything I feel today) ((All
I can hear is you)) (((For you to say)))
All I do
All she says (Everything I do)
All I want (Everything she says)
All I feel (Everything I want everything I feel today)
All I do
All she says (Everything I do)
All I want (Everything she says)
All I feel (Everything I do everything to shame)
All I do
(Everything I do)
All she says
(Everything she says)
All I want
(Everything I want)
All I feel
(And everything I feel)

It's so out of reach
