If I'm away from you long enough  
To make you cry at least you feel something.

If I'm (taking) away (the love) from you  
(I'll leave you) long enough to make (a change.)  
You cry (too much.) At least (I made) you feel  
something.

I'm 20,000 miles away and you still feel nothing.  
I'll give all the time it takes to make you feel something.

If I'm away from you long enough  
To make you cry at least you feel something.

If I'm (taking) away (the love) from you  
(I'll leave you) long enough to make (a change.)  
You cry (too much.) At least (I made) you feel  
something.

I'm 20,000 miles away and you still feel nothing.  
I'll give all the time it takes to make you feel something.

If I'm (taking) away (the love) from you  
(I'll leave) til you feel something.
