This is a dark world  
This is a cheap sick world  
This one is tattered and torn  
So why was I born into this world?  
Infected dirty world  
This poor desperate world  
Wasn't black and blue to her  
What did I do to her?  
Welcome to my world

Where I have nothing  
I have no one  
I am only alone  
I am alone

You are a beautiful safe girl

Wish you could heal this place, girl  
You are untouchable  
But I'm unlovable  
Welcome to my world

Where I have nothing  
I have no one  
I am only alone  
I am alone

I wish there was a safer place  
For me

I have nothing  
I have no one  
I am only alone

I am alone
