The sickman's in my room  
He has rendered me asleep  
Spread his lungs across my bed  
Now I'm doin' time  
The sickman's in my mind  
Robs the days I pray to keep  
And every breath I take is cold  
I'm set ultrawide apart  
Way beyond the frame  
Caught in a leakin' story  
Ultrawide apart from me  
Watch the dirt beneath my feet  
As it's creepin' up  
It leaves me unresolved  
Am I fallin' off the track ?  
What'soever I have fought off  
Has now become my life  
Has now become my life ...  
I'm set ultrawide apart  
Way beyond the frame  
Caught in a leakin' story  
Ultrawide apart from me  
From what you think I am  
Caught in a leakin' story  
Ultrawide apart from me  
From what you think I am  
I'm caught in a leakin' story  
Ultrawide apart  
I'm ultrawide apart  
I'm set ultrawide apart  
From what you think I am  
Caught in a leakin' story  
Ultrawide apart from me
