As tractor crushing all in their way, we are killing,
destroying and triturating anyway.
I'm one of them and who will try to face me?
Join me! Join us!
The men who break bones!
I am the bone grinder!
I am the worst assassin!
I'll arrest your soul, burn your flesh and triturate your
bones... all your bones!
Who will dare to cross your way?
I will break your spine and triturate anyway!!!
I'm one of them and who will try to face me?
The men who break bones!
Don't try to face me!
Don't try to stop me!
I'm stronger than ever!
Don't try to betray me!
My ion hands will reduce your skull to bran.
As a brutal fierce fucking machine!
