"Summer Break My Fall"

Visit "[Summer Break My Fall](#)" on MotoLyrics.com

Too dark, too soon and no action
This started a chemical reaction
Fall asleep, falling deep, come ascension
This martyr is looking for attention

Summer break my fall
Summer break my fall
Hear me when I call
Summer break my fall

Hot sand, green grass and affection
Jump in, got to go, no direction
Get away, I can't stay, it's getting colder
Help me lift this weight off my shoulder

I hope the sun will save me
On my way down
Once here you cannot blame me
