A childhood abandoned  
A sweet girl has vanished  
Where is Mother's child  
Well I bet at night she cries  
Yes I bet, at night, she cries  
And does it make you sad  
To think of what you had  
Once at the beginning of life  
And now at the beginning of the end  
Yes you're now at the beginning  
Of the end

Well wasn't it fun  
Yes we had a blast  
Children together  
In friendship and good time  
Moments of laughter  
Sealed in memory  
A piece of you, will always, live inside of me

And remember your friends  
Love Mom and Dad  
Don't let experience  
Rob what you had  
Rescue the child  
Inside of you
