Outside children play  
Laughter fills the air  
And I miss you  
The memories will fade  
The times we shared, erased  
I'll miss you

And now  
I'm gone  
And you  
Moved on  
What we  
Once shared  
You'll soon  
Forget

They say time heals all pain  
But time tears me further away  
From where my heart is

Is the loneliness a phase  
Will it someday be okay  
Or always remain

And now  
I'm gone  
And you  
Moved on  
What we  
Once shared  
You'll soon  
Forget

We read the words and turn the page  
We read the words and turn the page  
We read the words and turn the page

We read the words and turn the page  
I read the words and I lose my place  
We read the words and turn the page
