Take me away
Just whisper my name
And I'll be on my way
Put on that sweet smile
Let's me and you babe
Take off in style

It's happened again
I've fallen victim
Entranced by love
Now I'm in love
I've fallen for you
And I can't pull through

So hold out your hand
We'll pull down the stars
And live in them
Such a perfect, perfect crime
If I stole your heart
And you stole mine

It's happened again
I've fallen victim
Entranced by love
Now I'm in love
I've fallen for you
And I can't pull through
