"The Breaking of My Heart"

Is this the void
Of which poets wrote
The mourning of
Longing for

A tug of war
This heart stubborn
The soldier worn
Forges on

Enjoy the show
Your ghost plays starring role
In "The Breaking Of My Heart"

This solemn rhyme
I write with you in mind
As you burn deep
In my heart

Wonder now
Where your life led
Eras from
When we first met

The years they passed
And distance met
Your image stained
Bars escape

Enjoy the show
Your ghost plays starring role
In "The Making Of My Life"

This solemn rhyme
I write with you in mind
As you rip deep
Through my heart
