Hey you, what is this all about
You up in my house trying to run off the mouth
What now, did you forget my name
You think this is a game until I'm up in your face

You graduated to the hit list
Take a minute to collect yourself
I know you're not ready for this here
You didn't really think this up so well
Take a drip on your tongue
If you really want some

Anytime and place
(Anytime and place)
Anytime and I'll be waiting
Name the time and place
(Name the time and place)
Anytime and I'll be waiting
Come on, with one hand blazing
Come on, with one hand cold
Anytime and place
(Anytime and place)
Anytime and I'll be waiting

Hey you, you're dying everyday
You're looking for some pain
Well it's on the way
What now, you want the hard true
Be careful what you choose
'Cause it's me and you

You graduated to the hit list
Take a minute to collect yourself
I know you're not ready for this here
You didn't really think this up so well
Take a drip on your tongue
If you really want some

Anytime and place
(Anytime and place)
Anytime and I'll be waiting

Name the time and place
(Name the time and place)
Anytime and I'll be waiting
Come on, with one hand blazing
Come on, and one hand cold
Anytime and place
(Anytime and place)
Anytime and I'll be waiting

Anyplace, anytime
Anywhere is fine
If you wanna go, well we can go
Yeah, we can go
If you wanna go, well we can go
Yeah, we can go
If you really want some

Anytime and place
(Anytime and place)
Anytime and I'll be waiting
Name the time and place
(Name the time and place)
Anytime and I'll be waiting
Come on, with one hand blazing
Come on, and one hand cold
Anytime and place
(Anytime and place)
Anytime and I'll be waiting

Anytime, anyplace
