The words you used were mine
You used a thousand times
Doesn't make them what I've bled
I hated you, I loathed you
Though felt, I never let the words begin to spill

Make me sick till I can't breathe
Never want to be your enemy
Silence me, so I can't be
Never want to be your enemy

I walk the high road away from you
God knows what I've been through
This is the life I have, this is the life I choose
I walked away, the high road away from you
Walk away, walk away, you made an enemy

I never, I never wanted
I never wanted to poison or burn through
Labeled malcontent, by bastards of decent
Excuse this place I stand, words are to elude you

Make me sick till I can't breathe
Never want to be your enemy
Silence me, so I can't be
Never want to be your enemy

I walk the high road away from you
God knows what I've been through
This is the life I have, this is the life I choose
I walked away, the high road away from you
Walk away, walk away, you made an enemy

Deep inside realize never want to be your enemy
Change me, rearrange me, make me your enemy
(Yeah)

Deep inside realize never want to be your enemy
(Walk away from)
Change me, rearrange me, make me your enemy
(Enemy, yeah)

Deep inside realize never want to be your enemy
(Walk away from)
Change me, rearrange me, make me your enemy, your
enemy

I walk the high road away from you
God knows what I've been through
This is the life I have, this is the life I choose
I walked away, the high road away from you
Walk away, walk away, you made an enemy

The high road away from you
Walk away, walk away, you made an enemy
