All I ever hear from you is you're sick
And how the world shocks and I don't give a shit
The sky will fall when your sky fall
So go and cry walls, go on and cry wall, yeah!

Low crawl, low crawl, low crawl
Once again you pulled us out
Where's your [?] where's your curtain drawn?
Low life, low down, low crawl!

Walk that tight rope, but damn is no rope
I wish you could love, but hate will [?]
The sky will fall, when the sky will fall
So go on and cry walls, go on and cry walls, yeah!

Low crawl, low crawl, low crawl
Once again you pulled us out
Where's your [?] where's your curtain drawn?
Low life, low down, low crawl!

Say your prays, mind your ride
Marry your head like a prick in the sky
Marry your head like a prick in the sky
Marry your head like a prick in the sky

What goes around
Must come around!
What goes around
Must come around!

Low crawl, low crawl, low crawl
Once again you pulled us out
Where's your [?] where's your curtain drawn?
Low life, low down, low crawl!

Low crawl, low crawl, low crawl
Once again you pulled us out
Where's your [?] where's your curtain drawn?
Low life, low down, low crawl!
