At the end of the day, everything is a blhomegonna lick
my wounds and eat my words
Better tell revelations, the time is now
I use my dirty hands to dig the devil out
Get out

All my life is all these vices
Everyday's another crisis
All my life is all these vices
Everyday, everyday, everyday, everyday

I'm gonna live my life (my life)
Like it's saturday night
Saturday night
I'm gonna live my life (my life)
And sleep when I am dead and buried
I'm gonna live my life (my life)
Like it's saturday night
Saturday night
I'm gonna live my life (my life)
Sunday I will say I'm sorry

At the end of the road, at the end of the road
At the end of the road, at the end of the road
Well I open one night and I bring it all home (all home)

All my life is all these vices
Everyday's another crisis
All my life is all these vices
Everyday, everyday, everyday, everyday, everyday

I'm gonna live my life (my life)
Like it's saturday night
Saturday night
I'm gonna live my life (my life)
And sleep when I am dead and buried
I'm gonna live my life (my life)
Like it's saturday night
Saturday night
I'm gonna live my life (my life)
Sunday I will say

Hey now
Cast the demons out
Golden tongue, and gutter mouth
Hey now
Hold the fuck down
I'm so high, I travel by cloud

Hey now
Cast the demons out
Golden tongue, and gutter mouth
Hey now
Hold the fuck down
I'm so high, I travel by cloud

All my life is all these vices
Everyday, everyday, everyday, everyday, everyday

I'm gonna live my life (my life)
Like it's saturday night
Saturday night
I'm gonna live my life (my life)
And sleep when I am dead and buried
I'm gonna live my life (my life)
Like it's saturday night
Saturday night
I'm gonna live my life (my life)
Sunday I will say I'm sorry.
