I'm tearing away
Pieces are falling
I can't seem to make them stay
You run away
Faster and faster you can't seem to get away

Break!

Hope there's a reason
For questions unanswered
I just don't see everything
Yes I'm inside you
Tell me how does it feel to feel like shit
Just like I do

I don't care about anyone else but me
I don't care about anyone
I don't care about anyone else but me
I don't care about anyone

Do i really want this
Sometimes i scare myself I just can't let it go
Can you believe it?
Everything happens for reasons
I just dont know

I don't care about anyone else but me
I don't care about anyone else but me
I don't care about anyone or anything but me

Goddamn I love me

I don't care about anyone else but me
I don't care about anyone
I don't care about anyone else but me
I don't care about anyone
