I am the sun  
And I am the moon  
I am the winter chill  
On the first day of June  
The dark mystery  
That lies in the sea  
As my heart yearns  
To truly be free  
As the flames of the old  
Burns on with passion  
Till my heart grows cold

I crush the empires and crumble walls of stone  
I burn the villages of those below

I am the dark  
And I am the cold  
The blood of the ancients  
That can never be sold  
The spirit of our ancestors  
The storm that rages on  
The fragments of a broken past  
Forgotten by name

Possessed by times of old  
Immortal soul of the cold  
Centuries of wisdom at a cost  
Residing in a kingdom now lost
