There are killers  
In this town  
Killer, killers  
With all their killer plans  
A war is on the horizon  
Won't you let us be

The war machine keeps on rolling  
Evil minds and hearts of stone  
Have you done more  
Than you can swallow?  
Lord, won't you set us free?

There are killers  
In this town  
Killer, killers  
With all their killer plans  
A war is on the horizon  
Lord, won't you let us be

And set us free  
And overthrow your war machine  
And let us be  
And set us free  
And set us free  
And let us be
