[Intro:]

Yo, yo, can ya'll hear me out there?

Cool ,cool

Allow me to introduce myself, ladies and gentlemen

See, I go by the name of Big Woody Rock

And I'd just like to take this time right here to just first
of all thank you all

For taking the time out to listen to this album

Hope you're enjoying everything you're hearing so far

But right now I just think I need to dedicate this song

This next song coming up, to every man, woman, boy,
girl

Who ever and where ever you may be

Who's ever been in a relationship that just didn't quite
work out

Also this song is dedicated to everybody who comes up
to me in all the clubs

Supermarkets, airports, and every where else in the
world

Asking me "Woody when you goin' do something?

When they goin' let you sing?"

Not knowing that I sang all of "April Showers"

A verse on "All Alone", a verse on "5 Steps" and 'bout
half the songs on the album

But that's cool, ya'll ain't know, but right now I just want
you to sit back

Close your eyes, kick your feet up and listen to this
song right here

Cuz this here is for y'all

Yo, smiley you ready?

Lets do this

Girl, it's been so long

Since I held you in my arms

So I picked up pen and paper

And decided to write you a song

Things just ain't the same

Since you took your love away

All I have is dark and lonely days
Cuz the sun don't shine my way

Wish that I can find the words
To say to show you love is real
The words just can't express the way I feel

[1] - You're my angel
My sun up in the sky
We've been through hell and back together
Why you wanna leave me now
Only you can ease the pain I feel
And wipe my tears away
Won't you fly back home and make me whole again

Baby not a day goes by
That I don't want to cry
When I think of what we had
And how you walked out of my life

All I had was yours to take
Till my heart you chose to break
Still wish that I can make love to you
Just one more time for old times sake

If only I could find the words
To say to show you love is real
The words just can't express the way I feel

[Repeat 1]

Come back home
Come back home
Cuz without you here beside me, girl
My house is not a home

Only you can ease the pain I feel
And wipe my tears away
Won't you fly back home
And make me whole again

Cuz you're my angel
My sun up in the sky
We've been through hell and back together
Why you wanna leave me now
Only you can ease this pain I feel
And wipe my tears away
Won't you fly back home and make me whole again

You're my angel
My sun up in the sky

We've been through hell and back together
Why you wanna leave me now
Only you can ease the pain I feel
And wipe my tears away

You've been gone too long
So won't you come back home
