I think I'm gonna fall in love

I think I'm gonna fall in love

Verse 1 :

Girl you got what I need, and from what I see girl I
wanna be,

Your daddy and your baby, you can be my lady baby
stay with me,

Shorty who knows what the future may bring, baby I
know you should kick it wit me

Show you the road to that ecstasy , promise to make
your body sing

Let your mind run free, girl I know you're ready and you
know I'm ready

Baby come wit me, lookin kinda sexy so won't you
come on and move your body with me,

The Karma Sutra tempo, baby let your love flow, baby
don't be afraid (yeah)

Afraid of that feeling when you start to trembling

Chorus :

I like it when you say

I think I'm gonna fall in love
