Verse 1:

I wish I never told you, you should leave,
I wish me and you never had my seed,
No I better stop it that's a lie, because gurl you were the
apple of my eye,
It took a little time for me to see, that gurl I need you
right here next to me,
I could let you walk away but I'm not goin out that way,

Not that way no
Not goin out that way, cause can't be with you, can't
breathe without you,
I'm begging you to stay(StaYY) please stay(STAYYY)

Chorus:

I love you, even though I say that you can leave me
I want another chance just to adore you
I still believe in you and me (I love you)
I could take the time, take the time to see
Cause I don't wanna have to live my life in misery
I wasn't ready for you to set me free
Don't give our love away

Verse 2:

Words can't describe how I feel about you
Only heaven knows how much I do
Girl I'd put my own life on the line
I'd cherish and protect you with my life
All that I said, gurl I didn't mean
I'd die without your love baby if you need
I could let you walk away but baby I'm not goin out
that way..

Not that way
Not goin that way, Cause I can't be without, can't
breathe without
I'm begging you to stay

I love you, even though I say that you can leave me
I want another chance just to adore you
I still believe in you and me (I love you)

I could take the time, take the time to see
Cause I don't wanna have to live my life in misery
I wasn't ready for you to set me free
You might as well just kill me

Bridge:

All my life, I've sacrificed (sacrificed for you)
What lies inside was enough for me to die
I'm begging you to stay, please stay

Cant you just understand I just don't want to be wit
you.

I love you, even though I say that you can leave me
I want another chance just to adore you
I still believe in you and me (I love you)
I could take the time, take the time to see
Cause I don't wanna have to live my life in misery
I wasn't ready for you to set me free
