I got this feeling
And I just can't turn it loose
That somebody's been getting next to you
I don't want to walk around knowin' I was your fool
'cause being the man that I am
I just can't lose my cool

My friends keep telling me
about the things that's going on babe
But deep in my heart baby
I hope that they'd a wrong
Yes I hope they'd a wrong
But I know it babe

1-Sleeping in my bed, baby (my bed, my bed)
Somebody's takin' my place (baby)

And you know just what I mean
I come home early
Expecting your warm embrace
Something is wrong
'cause' its written all over your face
It hurt so bad when I walked through the door
But cha you know one damn thing baby
I ain't coming back no more
