Once
There was a time
When you could trust
And everyone was great
For a while
And you could walk at night and feel so safe
No man would ever turn a face in hate
Then
I didn't mind
Now I grind my teeth
And try to swallow
Life
Is so unkind
But if we could talk then maybe we'll be safe
Don't ever wanna see your face in hate
Hate can kill
Hate can kill
Once
There was a time
When we could trust
And everyone was great
For a while
We could walk at night and feel so safe
No man should ever turn a face in hate
Hate can kill
Hate can kill
