Nothing is certain
Nothing is right
As I pull down the curtains
And shut down the blinds
As I'm closing the gates
I see your ghost wandering by
Love was a barren and desperate mistake
I'll only get flowers down in my grave
Pour down the sadness
That only few people can taste
Livia - ahh
Sleep like an angel tonight
Livia - ahh
I'm sleeping right by your side
Livia - ahh
All that I had was in vain
Livia - ahh
Something got lost on the way
Bring all the horses
Bring all the men
Send for the ushers
Call up the band
Strip down the cupboards
I'll show you my very last strand
I wanna see ashes
All over the place
For all the King's horses
And all the King's men
Do not have the power
To change this oblivious fate
Livia - ahh
Sleep like an angel tonight
Livia - ahh
I'm sleeping right by your side
Livia - ahh
All that I had was in vain
Livia - ahh
Something got lost on the way
So sad X4
Don't ever change
