Do you want to live in the sun?
Do you want to live in the sun?

Where you get your gin
(He's walking in, she's walking in)
Carry way your sin
(Johnny walking in and Shiah walking in)
Everybody dance
(Gaia walking in and baby's walking)
Everybody walking in

He's coming, we're waiting
It's rain now, shine snow down
It's rain now, shine snow down
He's coming, we're waiting

Do you want to give, give away your flesh?
Do you want to give, give away your flesh?

Leave your car at home
(He's walking in, she's walking in)
Let your freedom roam
(Johnny walking in and Shiah walking in)
Where you get your gin
(Gaia walking in and baby's walking)
Everybody walking in

He's coming, we're waiting
It's rain now, shine snow down
It's rain now, shine snow down
He's coming, we're waiting
