Everything changes  
Nothing ever stays the same  
I wish I could stop time  
Instead of watching it pas me by  
I wish I could slow things down  
And turn the world around  
Always smile, always laugh  
Have a good time, while it last  
There's no looking back  
Everything changes  
For better or for worst  
Now's the time  
To make the best of things first  
You've got nothing to lose  
By living your life to fast  
Because once your dead and gone  
There will be no looking back
