Go get some

Say what

Youve always had so much to say  
Tellin everybody else what you think of me  
Im beginning to think  
That I'm here in the brink  
Of the shit that you bring  
You always throw at me

But your not the hardest I've met  
Be gettin what I got next  
The shit that you start  
The shit things that you play  
Now I'm given a right to go in-fuckin-sane

Frustration starts the burning  
And then the burn starts turning  
So close to being sick

Im so fuckin sick and I want to  
Go on  
I can't take your shit but I have to  
Go on

I cannot stand you fuckin face  
'cause I remember the past I can't erase  
Now I'm startin to feel  
That everything isn't real  
And all the people around me @#%\$ grow and break

But your not the hardest I've met  
Be gettin what I got next  
The shit that you start  
The shit things that you play  
Now I'm given a right to go in-fuckin-sane

Frustration starts the burning  
And then the burn starts turning  
And growing and burning and yearning and turning

My anger turns in knotted  
So much I almost lost it  
So close to being sick

Im so fucking sick and I want to  
Go on  
I can't take your shit but I have to  
Go on  
Im so fucking sick and I want to  
Go on  
I can't take your shit but I have to  
Go on

It can't beat me  
Sick  
Sick  
It can't beat me  
Sick  
Sick

Frustration starts the burning  
And then the burn starts turning  
And growing and burning and yearning and turning  
My anger turns in knotted  
So much I almost lost it  
So close to being sick

Im so fucking sick and I want to  
Go on  
I can't take your shit but I have to  
Go on  
Im so fucking sick and I want to  
Go on  
I can't take your shit but I have to  
Say what
