

Blackmores Night **"All Because Of You"**

Visit "[All Because Of You](#)" on MotoLyrics.com

Is this happening? Is this fantasy?

Never did I believe
There could be such happiness
Feels like nothing on earth
Started with one little kiss

I could stay in this moment forever
I could reach every star in the sky
I could lose myself when I look
Into your eyes

Is this happening? Is this fantasy?
All my dreams coming true
All because of you
I can't believe its true
All because of you

You are everything I
Wanted for so many years
Goodbye long, lonely nights
Sadness and thousands of tears

I could stay in this moment forever
I could reach every star in the sky
I could lose myself when I look
Into your eyes

Is this happening? Is this fantasy?
All my dreams coming true All because of you
I can't believe its true all because of you

Is this happening? Is this fantasy?
All my dreams coming true All because of you
I can't believe its true all because of you
All because of you
All because of you
All because of you
All because of you
