Iâ€™m standing here  
Watching the waves break on the sand  
Holding your hand  
And wondering if there was a time  
When I felt more comfortable  
I could conquer the world  
With you by my side  
Weâ€™ve gone down  
So many lonely roads  
Searched for what weâ€™d known was  
Right around the corner and I knew  
From the time I saw your face  
From our first embrace  
That you were the oneâ€¦

We could call it luck  
We could call it fate  
We could call it heartâ€™s desire  
We could call it a dream  
Even though weâ€™re wide awake  
Letâ€™s Just Call It Love

I feel like  
Iâ€™ve known you my whole life  
That every day and night  
Was made just for us  
I donâ€™t know what I ever did before  
You walked through my door  
And changed my whole lifeâ€¦
