[Fred] Holla

[Fred]  
I love the haters cause I feed of they energy  
I'm in the same business as the muthafucker on the  
roof who shot Kennedy  
Waitin for sinners and  
They see the glory and pain  
You know the story bout the boy with a name  
He did things like kill people and stole Kane  
The hood got three lanes, Life, Death, or entertain  
Now sellin's the life. In that box is the D-word  
In that house by the lake wit the yacht is the Keyword  
Fuck it, if he work and she work Da Band  
We work on P.D.'s nerves  
Man we probly gon clash when he hear these words  
But fuck it, I love that nigga, he the reason we hurr  
If it wasn't for him, I'd be livin to see dirt  
Now lil F.P. and me, we see curves  
Bend 'em - fuck it the windows is tinted, so we splurge  
Wit niggaz that treat me like Jerry and do Steve's work

[Chorus]

[Chopper]  
All I do is chill and blind hoe wit a sparkling grill  
Stroke, smoke, grind and count dough by the mill's  
That's real. I ride the wheels till' they fall off  
Sittin still wit a sawed-off ready to blow a arm off  
Oh, Lord! You don't want no problems wit dude  
I'm out that Band, so you now the boy-band news  
I bruise ya crew then ride out then head to the hideout  
I stay wit them nines out to clear the whole block out  
(Gunshot)

[Fred]  
Now they say "Fred you need to chill"

I been a BadBoy way before Martin of Will  
I'm somewhere parked on a hill on the southside of  
Germany  
That's what the game has earned me supportin my  
skills  
And them girls like "Freddy, you need to stop"  
How I came through like Griffin and made Cleveland  
hot  
How they get up on the floor and make it "Breathe and  
Stop"  
like Q-Tip - get in her ear and I bet she get in my drop

[Chorus]

[Chop] We them southside riders  
[Fred] C'mon, C'mon, Look out  
[Chop] Huh? Now what cha say Freddy Peezay  
[Chop] We them southside riders  
[Fred] C'mon, C'mon, Look out  
[Chop] Huh?  
[Fred] C'mon, C'mon, Look out  
[Chop] Huh?  
[Fred] C'mon, C'mon, Look out  
[Chop] Huh?  
[Fred] Get down! Get down, c'mon
