"Where Are We Going From Here"

Visit "[Where Are We Going From Here](#)" on MotoLyrics.com

On a long road, miles to go
It's winding and cold and it's covered with snow
But I ask you what we all want to know
Where are we going from here?

Lines on my face, lines on my hands
Lead to a future, I don't understand
Some things don't go as they're planned
Where are we going from here?

Tracing the trails through the mirrors of time
Spinning in circles with riddles in rhyme
We lose our way, trying to find
Searching to find my way home
Trying to find my home

As the day dies, with tears in our eyes
There's too few hellos and too many goodbyes
Silence answers our cries
Where are we going from here?

We're all on this road, with miles to go
Braving new pathways into the unknown
But who do you ask, when no one really knows
Where we are going from here?

Tracing the trails through the mirrors of time
Spinning in circles with riddles in rhyme
We lose our way, trying to find
Searching to find our way home
Trying to find my way home

Please help me find my way home
Please help me find my way home
Please help me find my way home
