I just want you to know that I want you to be safe
Or was it fate, no I can't remember
So much pain in the world, I hate feeling this way
(It took you away)

I wish I could be strong, I wish I could be brave
I wish I could be over and over
To the world and the some of fate
(Away)

For
(Forever)
Ful
(Beautiful)

Don't ever think that I could not appreciate
We all come
Full circle
Whatever out to give my lonely complicate

I just want you to know it isn't easy to face
It's growing back but I will remember
Hear your voice everyday, doesn't seam like the same
(It took you away from me)

I wish that you were gone
I wish you could be saved
I wish you could be over and over
To the world, another some of fate
(Away)

For
(forever)
Ful
(Beautiful)

Don't ever think that I could not appreciate
We all come
Full circle
Whatever out to give my lonely complicate

This isn't over, there's no way

I'm still denying everything
This can't be right and possibly
I don't know if I'll ever

For
(Forever)
Ful
(Beautiful)

Don't ever think that I could not appreciate
We all come
Full circle
Whatever out to give my lonely complicate
