

Dry Cell "Last Time"

Visit "[Last Time](#)" on MotoLyrics.com

They say it's true
Something's not right
They laugh at you
Hurting all the time and
[You just don't know why]
Destined to lose
It's not right [it's not tight...it's not right]
What can you do?
[All you do is fight and]
[You're losing your insight]

Chorus:
It's alright
It's okay
You're never far away
It's so real
It's so right
This is the last time

It's alright
It's okay
You're never far away
It's so real
It's so right
This is the last time
[Hurting all the time]
[And you just don't know why]

Who made this true?
No, it's not right
You make it through
[Hurting all the time]
[And you just don't know why]
They don't know you
Not inside
They have issues
[Fighting all the time]
[Has made them lose their insight]

It's alright
It's okay
You're never far away

It's so real
It's so right
This is the last time

It's alright
It's okay
You're never far away
It's so real
It's so right
This is the last time
This is the last time
This is the last time

So fall...
[Hurting all the time]
[And you just don't know why]
...asleep
Be peaceful as you lay
Forget about the world
You're going to be okay

It's alright
It's okay
You're never far away
It's so real
It's so right
This is the last time

It's alright
It's okay
You're never far away
It's so real
It's so right
This is the last time
This is the last time
This is the last time

[Fighting all the time]
[And you just don't know why..don't know why]
This could be the last time

They say it's true
Something's not right
They laugh at you
[Hurting all the time and you just don't know why...]
