

Dry Cell

"Tragedy Pass"

Visit "[Tragedy Pass](#)" on MotoLyrics.com

It's alright,
I can see
You wanna be my enemy,
Is all I'm saying

Half a life--
D.O.A.
Show me somethings going to change
It's always raining

There's only so much time
Before it's too late

Get out before it's over
You gotta get out before it's done
What a tragedy it would be
To die young

Tell me all reasons and
Things I'll never understand
You seem to know them
But you dont know, got to say,
How things ended up this way
But here we are today

There's only so much time
Before it's too late

Get out before it's over
You gotta get out before it's done
What a tragedy it would be
To die young(to die young)

So just run away(run away)
From all the things you've done
What a tragedy it would be
to die young(to die young)

Don't fight it'll be alright
Cause we'll burn so bright
We'll burn so bright, yeah

Don't fight it will be alright
Cause we'll burn so bright
We'll burn so bright, yeah

Don't fight it'll be alright

Get out before its over
You gotta get out before it's done
What a tragedy it would be
To die young (to die young)

So just run away (run away)
From all the things you've done
What a tragedy it would be
To die young (to die young)

Get out before it's over (run away)
You gotta get out before it's done (run away)
What a tragedy it would be
To die young (to die young)

What a tragedy it would be
to die young (to die young)
What a tragedy it would be to die young
