Glass of sin, so let's begin  
Welcome y'all to party 101  
So you think you got jam?  
You wanna be the man?  
Step right up & come an' get you some  
Well the first thing that yer gonna find out  
It ain't the balls or the biggest mouth  
Who holds their buzz & stand's up on their own  
'Cause it ain't no race  
There's no first place  
And the point of it all is stand up tall  
Show 'em your drinkin' bone

Yeehaw git r' done  
Last to fall is the last one drunk  
Knock around but don't spill your glass  
Keep it down, suck it up  
Ain't no such thing as ah-way too much  
All beginners get up off your ass...  
And cowboy up!

You wanna shake that junk? (oh yeah...)  
That's the stuff  
Pick 'er up, down it, taste the burn  
With a little bit of luck  
We just might fall in love  
An leave this place with someone on our arm  
Take a chance on a one-night stand  
Wearin' nothin' but our cowboy hat  
It's only dirty if we does it right  
So you an' me an' a friend make three  
That's one for you another two for me  
Money down & tearin' it up tonight!

Yeehaw git r' done  
Last to fall is the last one drunk  
Knock around but don't spill your glass  
Keep it down, suck it up  
Ain't no such thing as ah-way too much  
All beginners get up off your ass...  
And cowboy up!

Yeehaw git r' done  
Last to fall is the last one drunk  
Knock around but don't spill your glass  
Keep it down, suck it up  
Ain't no such thing as ah-way too much  
All beginners get up off your ass...  
And cowboy up!

Well yeehaw git r' done  
Last to fall is the last one drunk  
Knock around but never spill your glass  
Keep it down, suck it up  
Ain't no such thing as ah-way too much  
All beginners get up off your ass...  
And cowboy up!

Yeehaw git r' done  
Last to fall is the last one drunk  
Knock around but never spill your glass!  
Keep it down, suck it up  
Ain't no such thing as ah-way too much  
All beginners get up off your ass...  
And cowboy up!
