I've wasted all my daylight
Always dreamin in your eyes
I figured out what matters
Psychically feeling us go by

Your voice does this thing
And your smile could wreck me
The thought that we'll both be gone someday
Tears me to pieces

I've wasted all my daylight
Always dreamin in your eyes
I figured out what matters
Psychically feeling us go by

Your voice does this thing
And your smile could wreck me
The thought that we'll both be gone someday
Tears me to pieces

Your voice does this thing
And your smile could wreck me
The thought that we'll both be gone someday
Tears me to pieces
