And now again Oh  
You're looking so great tonight like always  
I feel so anxious,  
I don't know why I'm feeling this way  
I wish it was just for today

Well the moon is high and we see  
The stars and, they  
Give us light and I hold you tight  
One more time tonight

Forget my problems  
And all that bothers this time  
I'm feeling so right

So long I wait  
For this moment to appear  
Just by having you right here with me

But ??? ??? and all it seems  
I've got to go my way  
It's late in the night tonight

ouh ouh ouh

Well the moon is high and we see  
The stars and they,  
Give us light and I hold you tight  
One more time tonight (x2)

Well it's late in the night tonight  
The moon is high  
One more time  
One more time  
Well it's late in the night tonight
