

## DublinStu "Perfect Harmony"

Visit "[Perfect Harmony](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Walk by my side cuz you're too far away  
Falling back from your emotions couldn't keep them  
straight  
Before now, the sky wasn't as blue  
As when the clouds are gone and this light shines over  
you

Why can't we be in perfect harmony  
Sitting there so statuesque our journey complete  
Give me one more chance to make this feeling right  
The sun shines brightest after the darkest night

My inhibitions pressure me  
To do what's right without a fight  
In faultless melody  
I know that only time will tell  
But please don't hesitate to save me from this spell

Save me from this spell  
Why can't we be

Why can't we be in perfect harmony  
Sitting there so statuesque our journey complete  
Give me one more chance to make this feeling right  
The sun shines brightest after the darkest night

Why can't we be in perfect harmony  
Sitting there so statuesque our journey complete  
Give me one more chance to make this feeling right  
The sun shines brightest after the darkest night
