I want, I need  
I need to feel a fertile woman

There are many kinds of love  
that make their homes on this earth  
but we're gonna take a look at the love  
havin untold of worth - untold of worth  
not the kind with dyin vows, or even the  
question why  
but the kind made by two animals  
just to look up and watch it fly

I want, I need  
I need to feel a fertile woman

Do you like to be excited  
oh I like to be excited too  
so come on we'll raise some excitement  
oh yea that's what we'll do  
gonna raise some excitement with you  
tell me fertil woman  
do i come on too strong  
for us to come together  
and to sing out life's song  
just to sing out life's song

I want, I need  
I need to feel a fertile woman
