

Black Oak Arkansas "Our Minds Eye"

Visit "[Our Minds Eye](#)" on MotoLyrics.com

If you think we'll let our spirits die
when our bodies duz you're wrong - so very wrong
cause our minds eye will fly
toward oblivion

We'll take heed to the fire God
when passin his home in the sun
the candle of the universe
first extreme from the great one

And we'll have great respect
for the water God...that appears as the rain
both are extreme opposites
but the Gods are the same

Our minds eye will fly
our spirits won't die
we'll become one with the source,
bein both fire and water
we'll be part of God of course.
our minds eye will fly
our sparks won't die
we'll become one with the source,
being for, we that believe
we'll be part of God of course

Don't talk to us of death on earth
we'll talk about livin as best we can
our minds eye has an unquenchable thirst
to build on to this spirit in man,
so if you think we'll let our spirits die
when our bodies duz your wrong
our spirits will fly in our minds eye
on our way to oblivion

Water is the blood of God
fire is his brain
some think that we're a fraud
others say we're insane, insane, crazy
but we scare them when we talk about
things they can't explain
when our minds eye will get the hell out

and leave this physical plane

Our minds eye will fly
our spirits won't die
we'll become one with the source,
bein both fire and water
we'll be part of God of course
our minds eye will fly
our spirits won't die
we'll become one with the source
bein for, we that believe - we'll be part
of God's course
