First verse

Don't tell me no
When you're eyes say go
I can give it to ya fast
I can give it to ya slow
You turned on my heart
You wanted to play
We've gone this far
Gotta go all the way
When I feel the heart
Deep down inside
The sweat of love
Makes it slip and slide
The fire starts burnin'
Ya gotta let me in
Lustin' for the touch of warm, wet skin

CHORUS

I'm too hot, I'm too hot, I'm too hot to stop
I'm too hot, I'm too hot, I'm too hot to stop

Like a freight train engine comin' down the track
We're right on time
So don't hold back
Keep on pushin'
Push now girl
Don't stop now
Let's go around the world

CHORUS

(First verse again)
