

## **Black Oak Arkansas "We Help Each Other"**

Visit "[We Help Each Other](#)" on [MotoLyrics.com](https://MotoLyrics.com)

They call us rough, gaudy and crude  
ain't got no edicate, ain't got no cuth  
we got our own way to see the truth  
why should we complicate and lose our  
youth

We help each other to find the truth  
we help each other you can too  
we help each other when we're tired and blue  
if you help others they'll help you

Tell me who you can call for  
when you're in trouble man  
why don't you give each other  
a helpin hand

We're a livin example of this practice brother  
we helped ourselves by helpin each other  
don't try for peace of mind by beingun aware  
when you see life in danger for heaven's sake, care  
they tell us that progress is definitely there  
well yea we know we're goin ya'll but have  
you thought about where

Yea we're proud healthy happy and free  
we fly the cosmos of humanity  
just like our father's together we stand  
to hell with evil it'll all be damned  
All be damned

We help each other to find the truth  
we help each other you can too  
we help each other when we're tired and blue  
if you help others they'll help you
