"They're trying to get me!"
Said the tracking device in my neck
Sporadic light buried deep beneath my skin
So keep the lights out
Keep your filthy mouth shut
When you tell the truth and nothing but the truth
So help you god
Keep the lights out
Keep your filthy mouth shut
When you tell the truth and nothing but the truth
So help you god
Every human heart gets a little bit cold
I got a little confession to make
And my radio fixed in my ears helps me hear the CIA
Anti-gravity flesh on my feet so I fly if I jump from this
building
You're wasting your time old man
Like hell they believe you
And you messed up your life and it shows
Program ready to go
Program ready to go
Program ready to go
When I shake
Clear the room
I just might trigger the end
With my convolution
Makes me wonder
Oh no!
Program ready to go
Program ready to go
Program ready to go
Program ready to go
Get permission to touch me
Fever is too fucking hot
Give me something to sleep with
Fever is too fucking high
And the doctor said, the doctor said
"Keep your dirty old hands away from the pills in the
cabinet"
And the dirty old man said "don't let her get away"
And if she helps you sleep
Then she helps you sleep

Don't let her get away
Don't let her get away
Don't let her get away from me
