Hard way!
Oh I learn the hard way
Someday!
I'll be on top someday
Right away!
But oh, I'm on the right way now
I paid!
With my pride I paid
One day!
I was down one day
I say!
I say I'm on the right path now
Frustration
I can't forget the loss of pride my sole regret
Memories of pain and fear
Regrets that I just can't bear
My pride!
People hurtin' my pride
Inside!
It burns my soul inside
Survive!
I know thta I can survive now
Fall down!
I've seen others fall down
This town!
I don't live for this town
High ground!
I'm headed towards higher ground
Frustration
I can't forget the loss of pride
My sole regret memories of pain and fear
Regrets that I just can't bear
One time I was beaten down,
I'm on m way to higher ground
My life don't have too much to say
I know I'll be on top one day
